

September 2021 Course List

Delivery Mode Key – Colour coded throughout PDF

1. Can I study with on campus teaching? (On Campus Blended)

2. Can I study the whole course stage fully online?

3. Can I start online in my initial semester in 2021-22 if I have problems getting to Coventry in my first semester, but then would need to come to campus for blended delivery for subsequent semesters?

Please be aware that this list may change due to decisions from professional bodies about online learning. There are potential visa implication for International students selecting to study online and maintenance loan implications for home students. Students should be encouraged to discuss options with their Course Director and the International office (where applicable). The university hope to have some messaging about this available to help students understand the implications and we'll provide links to this when it is released.

* For LLB Law, students can choose to follow one of the following specialist pathways. The pathways do not lead to a named award, all degree certificates will simply state LLB Law, though the modules studied will appear on the transcript. The pathways are: Business, Criminal Law and Justice, International, Social Justice or Trade and Finance.

† For these courses, students that secure a 1, 2 or 3 semester placement can transfer to a professional experience pathway (additional placement tuition fee applies). This does not lead to a named "professional experience" award, but the non-credit bearing placement modules studied will appear on the transcript.

^ The Finance MBUS is studied on an accelerated basis, meaning that students complete four semesters back-to-back. There is a progression point after the first two semesters, i.e. between levels 6 and 7 of study, at which point a second tuition fee invoice will be raised if students successfully progress.

\$ Waiting for approval from CIPD that exams can be online in 2021/22

*These courses are integrated master's courses, so the student could continue on to the MEng/MSci/MPHYs in their 4th year, subject to performance/faculty approval. In some cases, the M level course may be available for direct entry as a standalone master's, but this would need to be checked with faculty.

† These courses have the opportunity to be extended masters with optional work placement for an additional fee.
